U.S. Equity Research

NVIDIA Corporation (NVDA)

Outperform | $195.56 | PT $275.00

Estimates Change

Solid Guide - AI HW/SW Leadership, Growing AI Capex, Rubin and China Still AHEAD - Adj Ests

NVDA reported strong JanQ rev **$68.1B** (cons. **$65.8B**) and guided AprQ to **$78B** above cons $72.6B) with Blackwell ramping, Rubin ahead and AI-bubble worries easing. We highlight: **1)** Key DC revs at ~**$62.3B** up 22% q/q (up 75% y/y), with total Blackwell revs estimated at ~**$50B**, **2)** CSP at ~50% of revs with sovereign also driving strong tailwinds, **3)** AprQ Blackwell ramps ongoing while Rubin 2H26E launch on-track with customers now sampling; **4)** JanQ Networking up 34% q/q as demand strong with GB200/300 ramps, **5)** GM outlook flattish with AprQ guided to 75%, down 20bps q/q, and expected to remain in the mid-70% range, and **6)** demand still accelerating with viability improving as it now has a >$500B Blackwell + Rubin revenue pipeline through C26E. **Reiterate Outperform and $275 PT, adjust estimates, as we see NVDA remaining the clear merchant AI-GPU leader at attractive ~25x F27E P/E.**

Key Points

SOLID AprQ Guide with Strong Blackwell Ramps - Rubin Sampling Now and Set For 2HC26E Launch. NVDA reported JanQ Rev/EPS of $68.1B/$1.62 (just above cons. $65.8B/$1.53) with strong Blackwell/Ultra ramps. NVDA also guided AprQ to $78B (ABOVE cons. $72.6B/$1.67), up 15% q/q noting **ZERO China revenue.** NVDA also noted: **1)** JanQ DC ~$62.3B (~91% of revs) was up 22% q/q with 2/3 Grace-Blackwell, **2)** AprQ DC estimated up ~16% q/q to ~$72B (cons. ~$66.4B) as we est AprQ at ~16K GB200/300 NVL72s (~$56B), and ~$13B networking (+ve LITE), and **3)** NVDA C26E DC Revs we est. ~$340B, up 75% y/y (vs AMD ~$17B). AprQ GMs inline 75% with mid-70s GMs through F27E. Top 5 CSPs were >50% of revenue, with C26E hyperscaler Capex at ~$670B.

Driving Inference Cost Down 10x with Vera Rubin as Extreme Co-Design Driving Sequential Growth. We believe: **1)** initial Rubin samples now with customers as it remains on-track for 2HC26E launch targeting Vera Rubin inference cost downs 10x vs Blackwell, **2)** q/q growth in DC revenue through C2026E with Rubin + Blackwell demand exceeding > $500B (prior ~$500B) as inference demand increases, and **3)** Sovereign demand ramping with F26 revenue at $30B, up >3x y/y, and expected to grow in-line with overall AI compute demand. Networking strong, with JanQ revs up 34% q/q, as NVLink, Infiniband and Ethernet are all ramping with Blackwell Ultra.

$3-4T AI Infrastructure Opportunity, with Improving Visibility and Agentic/Physical AI, Software-as-a-Token. We see GB300 ramps ongoing, driving 1HC26E, with Rubin's 2HC26E launch remaining on-track. NVDA noted physical AI at >$6B of revenue in F26, driven by robotaxi and robotics. We continue to see UPSIDE for NVDA with **1)** total AI infra market at $3-4T by 2030E, with continued demand for multi-modal workloads and agentic AI faster inference and token generation key to revenues, **2)** every 1GW of compute spend driving ~$50B Capex with ~$30-35B AI infra opportunity, and **3)** we note possible upside with China AI Revs 2HC26E a potential >$50B market opportunity.

Valuation

We rate NVDA Outperform with a $275 PT, ~33x F27E P/E, as we see NVDA attractive with F27E Rev/EPS growing 68%/72%, F28E up 25%/27%, and leading its peer group with ~75% GMs. We see NVDA continuing to lead the AI market with a TAM growing at a >60% 2024-28E CAGR and toward ~$3-4T AI Infrastructure market by 2030E.

Mizuho Securities USA LLC does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the Firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

The Mizuho View

Investment Thesis

We see NVDA remaining the leader in the AI training and inference chips for Data Center applications (we estimate >75% share today), which is projected growing at ~60% CAGR to >$500B by 2028E. We continue to see NVDA executing its roadmap, with Blackwell and NVL72/36 ramping in 2025E-26E, Rubin/Ultra on track for 2H26E, with >30% ASP tailwinds. We see Gaming (we estimate >75% PC share) are expected to remain healthy and stable, while NVDA's automotive ADAS pipeline remains strong. We also see upgrade cycle opportunity for the RTX 50-series as RTX 40-series penetration remains at ~10% of the PC market, as NVDA could see a >$16B/yr Gaming revenue run rate.

Base Case/PT

NVDA remains well-positioned in the machine learning, deep learning, and AI markets. Our $275 PT reflects ~34x our F27E EPS, still within its historical range ~20-65x as it retains >75-90% market share in merchant DC/AI.

Bull Case/PT

NVDA has significant market leading opportunities in the AI/DC, Gaming, and Automotive markets, see a bull case PT of ~$400, ~46x our upside F27E EPS of $8.80.

Bear Case/PT

If NVDA is unable to maintain strong growth in key markets as well as fails to continue to capitalize on AI opportunities, we see a bear case PT of $165, at 23x our downside F27E EPS of $7.27.

Risks

Escalations of export restrictions to China and other geopolitical tensions (Taiwan) or a significant pullback in AI Server spending could be major headwinds. We would also note limited CoWoS capacity at TSMC, and other suppliers, potential for FTC lawsuits, and growing competition both domestically and in China, where shipments have yet to resume following re-approval of shipments from the US govt.

JanQ Strong as Blackwell Continues to Drive Demand

NVDA reported JanQ Rev/EPS of $68.1B/$1.62 (Cons. $65.8B/$1.53), with ***top line up 20% q/q driven by, we estimate, ~$50B in Blackwell shipments during the quarter (up 19% q/q)***. JanQ GMs were up 160bps q/q to 75.2% on improvement in Blackwell ramps, while Opex came in up 21% q/q with new product introductions and increased compute/infrastructure costs. Inventories were $21.4B, up 8% q/q, as NVDA noted higher than normal inventory purchase commitments, up >90% q/q, with increasing LT customer visibility. Management guided AprQ GMs down 20bps q/q to 75.0%, in-line with consensus of 75.0% as it continues to target mid-75% GMs through F27E as it ramps Blackwell and prepares for Rubin. NVDA sees F27E Opex up mid-40% y/y as it invests in improving SW/HW with Rubin ramping in 2HC26E.

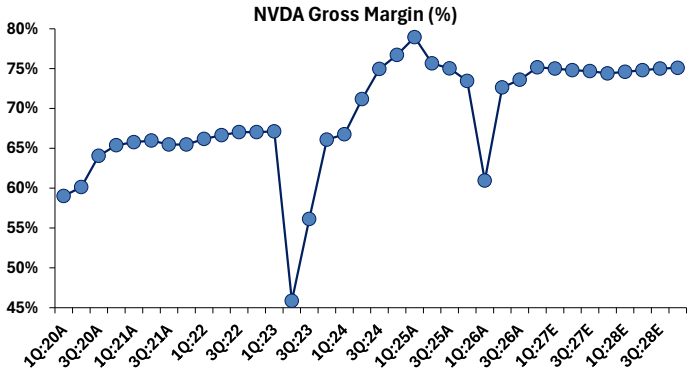
Data Center (91% of Rev) Remains Key as We Await Rubin

JanQ Data Center revenue (91% of total revs) tracked up 22% q/q and 75% y/y with GB300 now making up ~67% of its shipments. Networking sales were up 34% q/q we believe driven by continued demand across its product lineup with SpectrumX, Ethernet, NVLink and Infiniband all ramping. AprQ total rev was guided higher, we estimate up mid-teens% q/q vs. consensus of up ~10% q/q as NVDA noted Blackwell + Rubin pipeline through C26E now at >$500B.

Other Segments Doing Well but Gaming Seeing Supply Headwinds

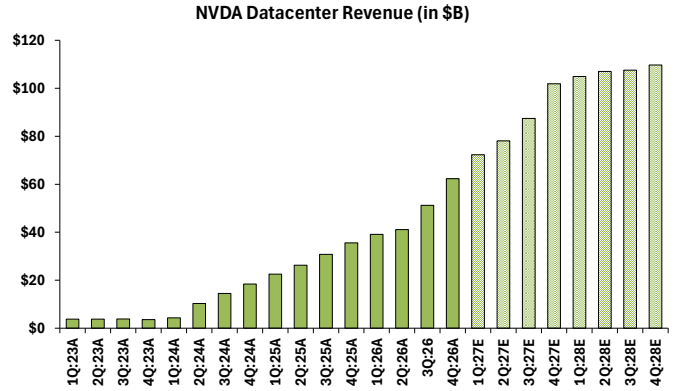
DecQ Gaming revenue came in down 13% q/q and up 47% y/y with channel inventories now at healthy levels heading into the AprQ. We forecast AprQ Gaming Rev tracking down ~4% q/q as NVDA noted strong demand more than being offset by supply chain challenges, we believe mostly in memory. **Pro-Vis** Revs were up 74% q/q and 159% y/y in the JanQ, driven by strength in RTX Pro 5000 workstations, and we see AprQ sales up ~2% q/q. **Automotive** revenues were up 2% q/q and 6% y/y in the JanQ, as management noted continued strong adoption of self-driving platforms.

Exhibit 1 - GMs Stablizing in mid-70s with Improving Blackwell Production



Source: Company reports, MSUSA estimates

Exhibit 2 - DC Ramps Continue as Pipeline now > $500B



Source: Company reports, Bloomberg, MSUSA estimates

Hyperscalers Guiding Towards Strong Capex in 2026E

Overall, we estimate the mix of Tier 2 CSP and enterprise/sovereign AI mix should continue to rise from near ~$53B of AI server spend in 2024 to ~$163B of the ~$440B AI server market in 2029E, growing at a ~15% 2025-29E CAGR. We believe the majority of AI server spend continues to come from key US hyperscalers, as we believe hyperscaler capex (including TSLA, AAPL, and ORCL) could grow at 15% 2024-2029 CAGR reaching $284B by 2029, with 2026 growing 34% y/y and hyperscaler capex up 66% y/y, with all major CSPs indicating spending strength to continue.

Exhibit 3 - AI Server Spend Remains Strong Driven by Hyperscalers and Tier 2 CSPs

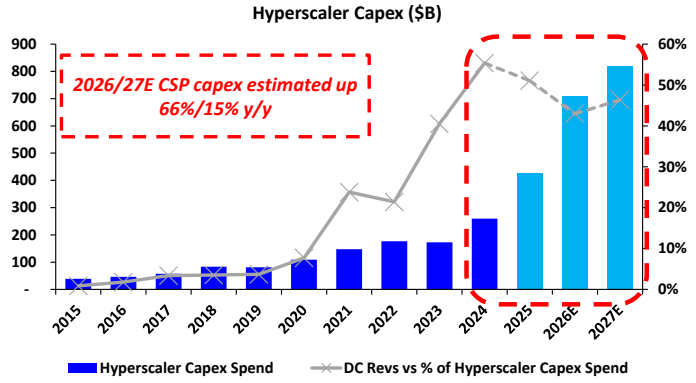
Exhibit 4 - CSP AI DC Ramping With Huge Capex Growth



Source: company reports, BBG, MSUSA estimates

Maintaining Outperform $275 PT, Adjust Estimates

- AprQ from $72.0B/$1.68 to $78.0B/$1.71 (Cons. $72.6B/$1.67)
- F27E from $344B/$8.11 to $362B/$8.00 (Cons. $333.7B/$7.83)
- F28E from $446B/$10.59 to $451B/$10.14 (cons. $430B/$10.13)

Reiterate our Outperform rating and $275 PT ~34x F27E P/E (~inline prior: ~34x), attractive versus our ests for NVDA F27E Rev/EPS growing 68%/72%, F28E up 25%/27%, leading its peer group with ~75% GMs. We see NVDA continuing to lead the AI market with a TAM growing at a >60% 2024-28E CAGR and towards ~$3-4T AI Infrastructure market by 2030E. NVDA bought back $3.8B of shares in the JanQ (prior: $12.5B) with $58.4B remaining in its repurchase authorization (prior: $62.2B).

Regulation Analyst Certification (AC)

I, Vijay Rakesh, hereby certify that the views expressed in this research report accurately reflect my personal views about any and all the subject companies. No part of my compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this research report.

Rating Definitions

As of 6/21/2024, Mizuho Securities USA (MSUSA) uses a relative rating system in which stocks are rated as Outperform, Neutral, or Underperform (***see definitions below***) relative to other companies covered by the analyst or a team of analysts that are deemed to be in the same industry (the "relevant industry coverage universe"). Investors should read the research report in its entirety, including the definitions of all ratings, and not infer its contents from the rating alone.

Investment ratings are based on the following definitions: The expected total return calculation includes anticipated dividend yield.

Outperform (O): The stock's total return is expected to outperform the unweighted, expected total return of the analyst's industry coverage universe over the next 12 months.

Neutral (N): The stock's total return is expected to perform in line with the unweighted, expected total return of the analyst's industry coverage universe over the next 12 months.

Underperform (U): The stock's total return is expected to underperform the unweighted, expected total return of the analyst's industry coverage universe over the next 12 months.

Restricted (R): In certain circumstances, MSUSA policy and/or applicable securities regulations preclude certain types of communications, including investment recommendations, during the course of Mizuho's engagement in certain transactions and in certain other circumstances.

Rating Suspended (RS): The rating and target price have been temporarily suspended due to market events that made coverage impracticable or to comply with applicable regulations and/or firm policies in certain circumstances.

Not Covered (NC): MSUSA does not cover the company.

For disclosure purposes only (NYSE and FINRA ratings distribution requirements), our Outperform, Neutral and Underperform ratings are displayed as Buy, Hold and Sell, respectively.

Prior to 6/21/24, MSUSA's ratings were Buy, Neutral and Underperform.

Rating Distribution

(As of February 25)	% of coverage	IB service past 12 mo
Buy (Outperform)	61.54%	53.72%
Hold (Neutral)	34.53%	48.82%
Sell (Underperform)	3.93%	45.83%

For disclosure purposes only (NYSE and FINRA ratings distribution requirements), our Outperform, Neutral and Underperform ratings are displayed as Buy, Hold and Sell, respectively.

Disclaimers

This report has been prepared by Mizuho Securities USA LLC ("MSUSA"), a subsidiary of Mizuho Americas LLC, solely for the purpose of supplying information to the clients of MSUSA and/or its affiliates to whom it is distributed. This report is not, and should not be construed as, a solicitation or offer to buy or sell any securities or related financial products.

This report has been prepared by MSUSA solely from publicly available information. The information contained herein is believed to be reliable but has not been independently verified. MSUSA makes no guarantee, representation or warranty, and MSUSA, MHSC and/or their affiliates, directors, employees or agents accept no responsibility or liability whatsoever as to the accuracy, completeness or appropriateness of such information or for any loss or damage arising from the use or further communication of this report or any part of it. Information contained herein may not be current due to, among other things, changes in the financial markets or economic environment. Opinions reflected in this report are subject to change without notice.

This report does not constitute, and should not be used as a substitute for, tax, legal or investment advice. The report has been prepared without regard to the individual financial circumstances, needs or objectives of persons who receive it. The securities and investments related to the securities discussed in this report may not be suitable for all investors. Readers should independently evaluate particular investments and strategies, and seek the advice of a financial adviser before making any investment or entering into any transaction in relation to the securities mentioned in this report.

MSUSA has no legal responsibility to any investor who directly or indirectly receives this material. Investment decisions are to be made by and remain as the sole responsibility of the investor. Investment involves risks. The price of securities may go down as well as up, and under certain circumstances investors may sustain total loss of investment. Past performance should not be taken as an indication or guarantee of future performance. Unless otherwise attributed, forecasts of future performance represent analysts' estimates based on factors they consider relevant. Actual performance may vary. Consequently, no express or implied warranty can be made regarding future performance.

Any references in this report to Mizuho Financial Group, Inc. ("MHFG"), MHSC and/or its affiliates are based only on publicly available information. The authors of this report are prohibited from using or even obtaining any insider information. As a direct subsidiary of Mizuho Americas LLC and indirect subsidiary of MHFG, MSUSA does not, as a matter of corporate policy, cover MHFG or MHSC for investment recommendation purposes.

MSUSA or other companies affiliated with MHFG, Mizuho Americas LLC or MHSC, together with their respective directors and officers, may have or take positions in the securities mentioned in this report, or derivatives of such securities or other securities issued by companies mentioned in this report, for their own account or the accounts of others, or enter into transactions contrary to any recommendations contained herein, and also may perform or seek to perform broking and other investment or securities related services for the companies mentioned in this report as well as other parties generally.

Restrictions on Distribution

This report is not directed to, or intended for distribution to or use by, any person who is a citizen or resident of, or entity located in, any locality, territory, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to or restricted by law or regulation. Persons or entities into whose possession this report comes should inform themselves about and observe such restrictions.

United States: Mizuho Securities USA LLC, a subsidiary of Mizuho Americas LLC, 1271 Avenue of the Americas, 2nd Floor, New York, NY 10020, USA, contact number +1-212-209-9300, distributes or approves the distribution of this report in the United States and takes responsibility for it. Any transaction by a US investor resulting from the information contained in this report may be effected only through MSUSA. Interested US investors should contact their MSUSA sales representative.

United Kingdom/Germany/European Economic Area: This report is distributed in the United Kingdom by Mizuho International plc (MHI), Mizuho House, 30 Old Bailey, London EC4M 7AU. MHI is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority and is a member of the London Stock Exchange. This report is distributed in Germany by Mizuho Securities Europe GmbH (MHEU), Taunustor 1, 60310 Frankfurt, Germany. MHEU is authorised and regulated by the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin). This report may be distributed in other member states of the European Economic Area by MHI and MHEU. For the avoidance of doubt this report is not intended for persons who are Retail Clients within the meaning of the FCA's or the BaFin's rules. Details of organizational and administrative controls for the prevention and avoidance of conflicts of interest can be found at https://www.mizuhogroup.com/emea/who-we-are/governance/mizuho-international-plc-legal-and-compliance/legal-disclosures.

Japan: This report is distributed in Japan by Mizuho Securities Co., Ltd. ("MHSC"), Otemachi First Square Otemachi 1-chome, Chiyoda-ku, Tokyo 100-0004, Japan.
